

Every year on March 1st the sewer rate increases by \$1.00. This is to cover a cost of living increase. On March 2nd of 2015 The Winston City Council voted to rescind the increase for the current year. Since this vote came after the March bills were printed and mailed our customers were billed at the increased amount. Customers will see an adjustment on their April statements. The monthly sewer rate for 2015 will be \$49.00. We apologize for any confusion this process might have caused. If you have any further questions please don't hesitate to call.

Thank you,

Winston City Staff
