

MANAGER'S MINUTE

September, 2020

As we go into fall remember that the City has added two additional months to the outside burning of debris, October and April added to November and May. Now is the time to clean up your property and get rid of the yard debris that has been accumulating all summer. Also, remember that the City's burning of yard waste is dependent on the status of fire season as controlled by DFPA. For example, even though the City would allow for outside burning if DFPA still has fire season in effect and no burning is allowed you must follow DFPA regulations. If DFPA has posted that fire season has ended, you can again start burning your outside yard waste as soon as October 1st and burn through November 30th.

The City is currently out to bid on the East Side Paving and Sewer Project. This project will replace sewer line and pavement on the streets of Ronald, Jorgen and Theodore. Because winter is just around the corner, the project may not start until next spring. Also, along the project front, the City has received a grant in the amount of approximately \$130,000 for the construction of the police parking lot.

Do not forget that City Council meetings are still being held by allowing no more than 10 people in the Council Chambers. For this reason, you have the option of calling into the meeting to be heard by the Council on any subject on the agenda. In addition to the agenda items, there is a place on the agenda, called comments from the audience, for you to talk about anything you wish to talk about to the Council.

During the month of September, your City Council acted on the following:

Approved Ordinances and Resolutions and Others, for the Month of June

- Resolution 20-957 Approving the 5th amendment to the Snow Pump Sta. Project.
- Resolution 20-958 Approving amendment 1 to the Downtown Sewer Line project.
- Resolution 20-959 Approving a design contract for the design of the Public Works Office.
- Resolution 20-960 Approving the purchase of a replacement generator for the Wastewater Treatment Plant

MANAGER'S MINUTE

September, 2020
