**EASTSIDE SANITARY SEWER AND ROADWAY
IMPROVEMENTS PROJECT.
(RONALD, THEODORE, JORGEN)**

The time has come and we are excited to announce that we now have an estimated start time for the the East side sewer and roadway improvement project!

Cradar Enterprises will be our Contractor for this project and they have provided us with an estimated mobilization start date of January,19 2021 and an ending date of mid June, 2021. The work is expected to begin on Ronald Street, then from there move to Jorgen and once that is completed they will finish up on Theodore. We ask that during this time you be patient and understanding with our contractors as for these are narrow streets and there will be several pieces of machinery on site.

A brief description of the scope of work shall include the replacement of approximately 1370 lineal feet of 8” sewer mainline, six 48” sanitary sewer manholes and 30 sanitary sewer laterals from the mainline to the edge of City right of way. 740 lineal feet of sewer main replaced will be on Jorgen Street and 640 lineal feet will be on Ronald Street. The project will also include drainage improvements and the repaving of Ronald, Jorgen and Theodore Street.

For more information, please contact Winston’s Public Works Department at (541) 679-6114
