

# WINSTON TRANSPORTATION SYSTEM PLAN

DO YOU LIVE WORK TRAVEL IN WINSTON?

We need **YOUR HELP** to create our community's Transportation Vision!

## Shaping transportation investment through 2040

The City of Winston is updating its Transportation System Plan (TSP) to guide transportation investments through 2040. The TSP provides a vision for managing and growing the City's evolving transportation network into the future.

## What's in the TSP?

Winston's updated TSP will include projects that support all modes of travel including driving, taking transit, walking, bicycling, using rail, and flying. These multimodal projects will focus on enhancing the transportation system's safety performance and mobility.

## How can I get involved?

We invite you to participate in the first TSP Open House. Here, you can share your feedback on the goals being proposed for the TSP and give your input on transportation needs that you see throughout the community. Additional details about the Open House are provided to the right.

## Make Your Voice Heard!

### IN-PERSON OPEN HOUSE

September 29, 2021

5:00 to 7:00 PM

Winston Community Center

### VIRTUAL OPTION

If you wish to participate virtually, an online survey will be available that presents the same information from the in-person Open House so you too can share your input. Details about how and when you can complete the survey will be provided on the project website in September (see below).
